

Adult – Block Party & Other Cardiac Arrhythmias Fast Track

Course Description: This module summarizes the Block Party Full Module. It reviews dysrhythmias and AV Blocks, for nurses who feel confident about cardiac dysrhythmias and who want a refresher. The module will boost knowledge and confidence for nurses who are working with cardiac-monitoring patients, and who are looking for a refresher in cardiac dysrhythmias and AV Blocks.

Course Objectives:

- ➔ Link the electrocardiograph tracing to the anatomy and physiology of the heart
- ➔ Discuss arrhythmias in relation to their origin
- ➔ Briefly describe Defibrillation, Cardioversion, and Pacemakers
- ➔ Describe indications and contraindications for antiarrhythmic medications
