

Pediatric Gastroesophageal Reflux

Course Description: This module reviews gastroesophageal reflux, the differences between reflux and GERD, and their presentation, diagnosis, and nursing/pharmacologic management. It uses a case scenario to test the student's understanding of the material.

Course Objectives:

- Explain what is meant by gastroesophageal reflux and disease
- Differentiate gastroesophageal reflux and GERD
- Explain the signs and symptoms of a child diagnosed with gastroesophageal reflux and disease
- Describe the care of a child diagnosed with gastroesophageal reflux and disease
