**Mary Kay:** All right Dave, tell us about the multiple intelligences theory?

**David Powell:** The multiple intelligences theory was proposed by Dr. Howard Gardner and says that every individual has many different intelligences. These intelligences can work together and as a result, instructors should design lessons that address and foster the growth of all intelligences.

**Mary Kay:** So Dave, what types of intelligences do people actually have?

**Dave:** The intelligences that Dr. Gardner identified are linguistic, musical, logical, interpersonal, intrapersonal, naturalistic, spatial and bodily.

**Mary Kay:** Good stuff Dave. Have a great afternoon!

**Dave:** You too Mary Kay, talk to you soon!
