Announcer: SyberWorks podcast. Learn any time, any place.

Mary Kay Lofurno: Welcome to the SyberWorks LMS e-Learning Implementation Podcast Series where we look at real world learning system management implementation and e-Learning program roll-outs. SyberWorks specializes in custom e-Learning solutions, learning management systems and e-Learning development for corporations, governments and non-profit institutions. My name is Mary Kay Lofurno. I'm the Marketing Director here at SyberWorks and your host today. It's been a busy and informative year here on the SyberWorks LMS e-Learning Implementation Podcast Series.

We looked at LMS implementation across an assortment of companies and industries such as medical manufacturing, credit unions, a training company, a software manufacturer, a heavy equipment manufacturer, a global contractor labor staffing firm, a hospital, a national chain of kidney dialysis centers and an Indian reservation.

And don't forget our discussion with Stuart Campbell, Director of Software Engineering at SyberWorks where he talks about his article on SCORM communication flows.

You can find these podcasts, their source articles and their accompanying transcripts in the Media Center on the SyberWorks website.

This is Mary Kay Lofurno, Marketing Director at SyberWorks.

We at SyberWorks want to thank you for listening to our LMS e-Learning Implementation Podcast Series. And we want to wish you a Happy Holiday and a safe New Year!

Talk with you next year!
